Our region is at a critical crossroads in today's global economy. Are we poised to compete and win in the global marketplace? Do we grow or stagnate? Do we innovate or simply continue with status quo? Our work with Garner Economics, a nationally recognized leader in economic strategies and site location consulting, is helping us to embrace our realities and guide us in how we accentuate our assets and mitigate our challenges. **Please join us for the Final Report to the Community** to learn about the assessment of our region, our major challenges and recommendations for success including the action plan, organizational structure and investment schedule.

If you are unable to join us in person, please join the live streaming video at www.livestream.com/outeredge
